GOVERNOR IN NEW RECORD ON VETO NUMBERS

Philipp Has Overridden More Bills Than Any Other Executive

The 1919 session of the legislature has gone into history. A sine die adjournment was reached shortly before five o'clock Wednesday evening. At the opening of this session on Jan. 8 it was currently predicted that it would be one of the shortest sessions in the history of the state. The final record shows that with the exception of the 1915 session the present session of the legislature is second for length of service. The 1915 session lasted until Aug. 5.

More bills have been vetoed by the Governor at this session than by any executive at any session of the legislature. A total of 40 bills received the executive veto. No bills were passed over the executive veto. A total of 700 were approved by the Governor.

There was little of interest to mark the closing day of the session, in the senate, Lieut. Gov. Dittmar presided with Senators Huber, Nye, and Stadenmayer present at the final adjournment. The assembly session was attended by Speaker Young, Assemblyman Anderson, Killa and Jordan.

Trouble in East Depends On Arabia

"Until the Arab question is settled, I believe that there can be no solution of the trouble in the near east," declared Prof. W. L. Westermann, at the university yesterday afternoon. He feels that the ultimate independence of the Arab world must be kept in view in the settlement of Arabian affairs, or there will be a long war in the east.

There is a movement in Arabia, explained Prof. Westermann, to re-new Arab culture. This movement was formed through a revolutionary secret society to establish a free Arabia, and while the highest class of Arabians know that for some time they will not be able to entirely rule themselves, yet they have a great desire to be independent. They eagerly came to the peace conference in Paris, but when they left in May they were no nearer an understanding of the western world than they were before. It is too complex for them to understand.

AUSTRIAN CABINET IN RESIGNATION

Regime Headed by Dr. Karl Renner to Surrender Places

PEACE TERMS CAUSE

Dissatisfaction With Financial Terms Cause of Feeling in Vienna

VIENNA (Via Berne)—The Austrian cabinet headed by Dr. Karl Renner, has decided to resign. Austrian governmental affairs have recently been in a rather unsettled state. The peace terms presented by the allied and associated powers to the Austrians at St. Germain have been stoutly protested against in official circles in Vienna, the financial provisions being considered as particularly onerous and predictions being made that Austria was likely to be driven into bankruptcy.

Last week Dr. Otto Bauer, the foreign minister, resigned his post, because of dissatisfaction at his failure to obtain important advantages for Austria in the negotiation leading up to the formulation of the peace treaty. Chancellor Renner, however, filled the gap caused by Dr. Bauer's resignation by taking over the duties of the foreign office himself, in addition to those of the chancellorship.

Danger Lurks In Summer Foods For Babies

EVERY mother knows the evil effects of summer heat on a cow's milk. This danger is equally great to all foods unless carefully kept in a cool place away from insects.

Bad food loses its nourishing value. It causes constipation and diarrhea. These are at best always prevalent in the summer time. They depress the mind and weaken the body, and may cause more serious illness.

The first precaution is to see that the stools are regular and normal. In the case of babies and children, it is less than twice a day you may suspect constipation; if more than three times a day, diarrhea. A remedy is then

needed that will regulate and tone the bowels, and you will find none safer and better than Dr. Caldwell's Syrup Pepsin. It is a combination of simple laxative herbs with pepsin that millions of mothers constantly have in the house for just such purposes.

A bottle of Syrup Pepsin can be bought at any drug store for 50c and \$1, the latter the family size. A free trial bottle can be had by sending your address to Dr. W. B. Caldwell, 480 Washington St., Monticello, Ill.

TOLL RATES TO REMAIN HIGH FOR 4 MONTHS

Reverting of Lines Does Not Affect Long Distance Charges

Telephone rates in the state of Wisconsin will not be changed tomorrow as the result of the control of lines reverting back to private control. The Wisconsin Telephone Co. which controls all of the great toll lines has a compensation contract with the government which will keep present rates effective at least until an act of congress terminates the control of Postmaster Burleson. This will be at least four months.

The railroad commission order issued yesterday restores rates of July 31, 1918, when the lines were taken by the government. Companies holding compensation contracts with the government and who filed claims with the postmaster general before June 20, 1919 are not affected.

"Keep Cool" Is Humorist's Advice on Hot Weather

Do you know the remedy for getting all "hot" up with the thermometer bubbling and steaming around 98 in the shade? Does not weather affect humorists?

That's what we asked of John Kendrick Bangs, America's famous humorist, yesterday when the thermometer was hovering around 94. Quick as a flash the answer came back:

"Keep cool." "I never talk about the weather though for publication," he continued, "because the things I would like to say about it would be unfit to go through the mails. It doesn't make it any hotter nor any cooler to cuss the weather so I let it alone."

Like many other great men, Mr. Bangs has learned to master his feelings, and seeing that the rain had cooled things off considerably and that he perhaps could make good his assertion for the evening at least, he added:

"Personally, I am perfectly impervious to both heat and cold, and never show any signs of fatigue, except perhaps a wilted collar after an address."

A picture of the utter ruin and desolation of a territory four times as large as the state of Massachusetts was brought to the audience that packed Music hall to hear John Kendrick Bangs, famous American writer and humorist, speak of the "Lights and Shadows in the Land of Valor," the French and Belgian fields which he visited both before and after the armistice and for which he was making an appeal for aid for the American committee on devastated France Monday night.

Alternately laughing and sitting in painful silence, the crowd listened to the tale of the blotches and deformities that now made hideous what once had been a prosperous countryside of fertile fields and rural happiness. The ruins of the beautiful Rheims cathedral, Mr. Bangs compared to a lovely woman to whose face a rival has thrown a trial. Aiding the work of restoring these lands to a semblance of their former beauty and usefulness, or the people who lost them, Mr. Bangs characterized as one way in which Americans can help pay the debt they owe the gallant French people for stopping the enemy of democracy.

THE CHURCH AND THE PROBLEMS OF TODAY

INCREASING signs that the church and the leaders of the church are appreciating more and more their responsibilities in the great movements that are shaking the world today are becoming evident.

The men of the church realize that the church, as the great instrument in the progress of Christianity cannot ignore the great movements of the day as being outside the sphere of the church. They have come to realize that the whole structure of the church is exposed to contact with these forces that are setting men at each others throats throughout the world. The problems of industry must be faced; the struggle between labor and capital must be reckoned with; exploitation of peoples, subjection of weak nations, the abolition of war as a means of settling differences between peoples,—these are all questions which require the great wisdom which the church can bring to their solution.

Bishop Charles David Williams of Michigan is a clergyman who is enunciating some clear headed thoughts these days. He is now delivering a number of sermons in one of the churches in New York. The New York Times quotes him as follows from one of his recent sermons:

"We have gone through all the stages of owner and slave, lord and serf, employer and employee. The next step is a copartnership consisting of employer, employee and the public, the public coming in to regulate both and see that justice is done to all and that the ultimate consumer does not suffer.

"The church must wake up. The crisis is upon us. Unless we face our responsibilities and meet the issue which has been thrust upon us, we may as well put us our shutters and go out of business. Democracy's fundamental creed is confidence in the innermost worth of the undermost man. We have got to have that belief if we are going to discharge our duty in the new day which is upon us. Christ had that vision. The whole Gospel is based upon it, and if the Episcopal church is going to be true to itself it will not fail now. In the democratization of labor and the League of Nations I see the greatest hope for the future, and it is the duty of the church to be allied with every cause which makes for humanity's betterment.

"On the one hand we have the shadow of Bolshevism. Bolshevism is simply an inversion of the old order, and is everywhere the enemy of democracy. Both Bolshevism and the older order are based upon the principle of the public be damned. In the old order we had autocracy on top with the proletariat underneath and the people being crushed in between. If we are wise enough to accept the industrial democracy which will embody on equal terms all three elements the ideal social copartnership will have been achieved.

"If Bolshevism comes to the United States—and I don't believe it will—it will not be through the L. W. U. or any other of the organizations of that class, but because of the repressions of the reactionaries who are not wise enough to recognize present tendencies and adopt themselves to them. The reactionaries are the most dangerous element with which we have to contend now. But as I have said, I do not fear Bolshevism. The church is getting the vision, and one of the encouraging signs is this effort of the Episcopal church through its Nation-Wide and Every Name Campaigns to muster its forces to grapple with these problems of after the war reconstruction.

"England is far more advanced than we toward the ideal of an Industrial Democracy. Her Labor Party will bring it about in the British Empire. Our labor unions in the United States have made the mistake of confining their efforts to technical problems of wages, and conditions, and hours of employment. They have avoided political action and have resisted any fellowship with the intellectuals, while the English laborites have welcomed them, and in consequence over there the brain and brawn workers have stood solidly side by side.

"There are two camps of unreason operating against the best interest of the people, and in these, on either hand, are entrenched Bolshevism and Repressions. Religion and education are the forces with which to oppose them. Here are the opportunities of the church, if she will only make use of them. The industrial democracy must be based on intelligence and the Christian conscience, and it is along these lines that the church must operate."

TO STAMPEDE THE CITY?

ASPECIAL meeting of the common council has been called for tomorrow night to consider the one man car proposition submitted by the street railway company.

The common council, of course, has no authority in the matter and can simply act in an advisory capacity to the railroad commission.

It is apparent, however, that an attempt is to be made to stampede the one man car proposition through.

Why all this hurry? Why is an effort being made to jam this proposition through before a start has been made in the investigation now on before the commission?

The annual statement of the company hasn't even been filed. No testimony has been taken as yet to show what the earnings of the company for the year ending June really are.

Why decide this matter before the people have all of the facts?

Let's take a look at the figures on the earnings of the company before we are rushed into a proposition that will mean more profits for the street car company and poorer service for the public.

Voice of the People

ON LINCOLN COUNTY.
To the Editor of The Capital Times:
I notice by the enclosed editorial that you still occasionally dip your pen in the font of fancy and color this matter-of-fact old world with the gold of your vocabulary. What you say about Lincoln county, however, is absolutely true and without exaggeration.
We have never known such a demand as this year for good farms in the district which you describe.

CONSEQUENCES.
Beneath June skies
A rose was born
That charmed the gaze of men.
And as it grew the women, too,
Paid homage here
At beauty's shrine,
Inhaling the perfume.
From bud to bloom
It held in thrall
All gazers on its form.
In pride it gained, through weather
stained,
And spread its bloom
To marvelous, wondrous size,
Till shattered by the storm.
Beneath June skies
A girl was born,
Whose features, form and face
Enraptured men—old and young.
Then
These praised the gods
That beauty lived
In graceful, mortal shape!
That girl, she grew
To woman's state,
In beauty and in wit.
At twenty-three she seemed to see
Her waist had spread.
Unlike the rose, she saw her end—
Good Lord!!! I'm growin' fat.

Dinner Stories

A policeman who is a great walker was out enjoying his favorite recreation. After going a few miles he sat down to rest.

"Want a lift, mister?" asked a good-natured farmer driving that way.

"Thank you," responded the policeman, "I will avail myself of your offer."

The two rode on in silence for a while. Presently the farmer asked: "Professional man?"

"Yes," answered the policeman, who was thinking of a bill he had pending before the house. After another long pause the farmer observed: "You ain't a lawyer, or you'd be talkin'; you ain't a doctor, 'cause you ain't got a bag, and you ain't a preacher, from the looks of you. What is your profession?"

"I am a politician," was the reply.

The farmer gave a short of disgust. "Politics ain't a profession; politics is a business," said he.

Senator John W. Smith of Maryland recalled the following story to illustrate the "great drought of some legal arguments":

Some time since a rather youthful lawyer had a case in which he wished to make a hit, and to that end he looked up authorities that took him back to the days of Julius Caesar. At the end of an hour and a half he was pained to observe what looked like inattention on the part of the court. Apparently the judge was not appreciating the fine points of his argument. "Your honor," said he, pausing in his plea and turning to the bench, "I beg your pardon, but are you following me?"

"I have so far," answered the judge, wearily shifting about in his chair, "but if I thought I could find my way back I would quit right here."

Two sailors, an Irishman and a Scotchman, could never agree and the rest of the crew had become adepts in starting them on an argument. One day "patron saints" was the subject of which the Scotchman knew nothing and the Irishman just a little.

"Who was the patron saint of Ireland?" said Jock.

"Do you mean to say you don't know?" said Pat. "Why the holy St. Patrick."

"Well," said Jock in deliberate tones, "hang your St. Patrick."

In a towering rage the Irishman hesitated a second while he thought of something equally offensive, and then burst out with: "And hang your Harry Lauder!"

An officer on board a warship was drilling his men.

"I want every man to lie on his back, put his legs in the air, and move them as if he were riding a bicycle," he explained. "Now commence."

After a short effort, one of the men stopped.

"Why have you stopped, Murphy?" asked the officer.

"If you please, sir," was the answer, "O'm crowding."

"We feel crowded in this flat," said the tenant diffidently.

"No wonder!" exclaimed the janitor. "This flat was never intended for a family of six."

"But there are only myself and wife."

"I know better. Besides you two there are a canary bird and three goldfish."

News Notes from Movieland

The end of jazz dancing is near, at least that is the opinion of Helen Darling. Helen was one-time leading exponent of everything jazzy from hula hula to "ahimny" in San Francisco. Now she is disconsolate, for she says that the end of the wild and intoxicating dances is in sight.

But Helen decided that there were other things just as exhilarating as the dance and she went into pictures to prove it. Now she is one of the many pretty comedienne in the Christy comedies. The life of a motion picture comedienne is far more lively than that of any dancer is Helen's verdict after her short turn at leaping from boats into the ocean and falling from second story windows and being otherwise battered up in the name of "comedy." She has not yet had a custard pie facial massage, but she says she expects one in any scene.

Charlie Chaplin and Douglas Fairbanks are to start on a journey in the early fall which will take them to South America. They have both been invited to make pictures in the southern hemisphere and are going to take advantage of the offer, leaving here some time in October. Traveling first to Rio de Janeiro they will get some Brazilian shots and then will depart with bag and baggage for Buenos Aires, later leaving the Argentine for the western coast of Chile, probably headquarters in Santiago. Their expedition will cover from four to six months — all depending on the weather conditions.

Anna Lehr III
Anna Lehr, who was selected to play opposite David Powell in the all star cast of "Teeth of the Tiger," now being produced at the New York studio of the Famous Players-Lasky Corporation, has been compelled to withdraw from the cast. Miss Lehr was taken ill with ptomaine poisoning three weeks ago and her continued illness has necessitated a substitution and the retaking of the scenes in which she has worked.

Marguerite Courtot has been engaged to take Miss Lehr's place.
Old Favorites
J. Stuart Blackton has added George Bunny, brother of the late John Bunny; George Pauncefort and Robert Milasch to the cast of "Dawn," his current production. These three engagements complete the roster, which includes also Sylvia Breamer, Robert Gordon, Eddie Dunn, Lefty Alexander, Fanny Rice, Margaret Barry, Harry Davenport, Gladys Valerie and Flora Finch.

REAL ESTATE MAN ENTHUSED OVER HIS IMPROVEMENT

J. M. Boyd Gains Fifteen
Pounds After Taking
Tanlac

"I have gained fifteen pounds since I began taking Tanlac, and I feel better in my life than I have ever," said J. M. Boyd, a well-known real estate man, whose office is at 3327 Michigan Ave., Kansas City, Mo.

"For the past twelve months," continued Mr. Boyd, "I have suffered a great deal on account of the general condition of my stomach. I was under treatment for a good while, and took many different kinds of medicines, but I just gradually grew worse until I commenced taking Tanlac. What I ate would sour, and this would cause gas to form in my stomach, and I would be perfectly miserable for hours at a time. I also suffered from constipation, and had to take a laxative of some kind every day. I lost weight and just felt myself getting weaker all the time.

Well, sir, before I had finished the bottle of Tanlac I could see that I was doing me a world of good. I continued to take it until my troubles were completely overcome. I have no sign of stomach trouble now, and everything I eat goes with me perfectly, and that is a good deal, for I have a appetite and eat three hearty meals every day. I have gotten rid of my constipation also, and have gained a lot in weight, and feel full of strength and energy. Many of my friends have noticed my improvement, and have spoken about it. I always take great pleasure in telling them that Tanlac is really good for it."

Tanlac is sold in Madison by The Pharmacy, in Deerfield by J. A. Perkins, in Middleton by Dr. J. M. Teckam, and in Stoughton by J. K. Falk & Son.—Adv.

NEURALGIA PAINS TORTURED WOMAN FOR FOUR YEARS

Illinois Resident Was Almost
Wild With Pain Until She
Used Dr. Williams'
Pink Pills

"Neuralgia developed about four years ago," says Mrs. A. F. Liggett, of 1006 East Fairchild street, Danville, Ill., "and as the disease continued the pain grew worse until I was almost wild with suffering at times. The pain was constant and many nights I went without sleep. There were also severe headaches and I became very nervous. My blood was so thin that I was seldom warm or comfortable. My digestion was disordered and I had dizzy spells."

"One day, when the pain was especially severe, I heard of a woman who had taken Dr. Williams' Pink Pills with benefit and her symptoms were so nearly like mine that I decided to give the pills a trial. Within two weeks after I started the treatment I could see that the remedy was helping me. The pain became less severe and finally disappeared entirely. Then I was able to sleep soundly and it wasn't long before I began to regain my strength. My blood improved too, my nerves grew stronger and I feel better than I have for several years. Is it to be wondered at that I am glad to recommend Dr. Williams' Pink Pills to my friends?"

Dr. Williams' Pink Pills are sold by all druggists or direct from the Dr. Williams Medicine Co., Schenectady, N. Y., on receipt of price, 50 cents per box or six boxes for \$2.50. Write for the free booklet on nervous disorders with a special chapter on neuralgia.—Adv.

Object to Parallels

Drawn by Berger
WASHINGTON — Attempts of Victor Berger to compare certain speeches by prominent republicans criticizing the administration for its conduct of the war with his own utterance during the conflict drew a protest today from Representative Welby, Dem., Ohio.

"The republicans simply were criticizing a lack of speed," said Mr. Welby, "while you were trying with all your might to destroy the military efficiency of this government."

PRESENT DRAMA HERE TONIGHT

Distinguished Company of
Players Appear in 3 Day
Engagement

This evening at 8:15, one of the largest audiences that has ever filled the open-air theatre, in the rear of Main hall, is expected to greet Clifford Devereux and his distinguished company in their initial performance of their three day engagement at the university.

Shakespeare's "Romeo and Juliet" will be presented as the opening production. Friday night Goldsmith's "She Stoops to Conquer" will be given, followed by a matinee Saturday afternoon of Shakespeare's "The

MISS ZINITA GRAF

Taming of the Shrew." The engagement closes Saturday night with Sheridan's "The School for Scandal."

The Clifford Devereux corporation comes most highly recommended as an organization of the most talented actors, appealing particularly to the university and college audiences in their presentations of the dramas of the world's most famous writers. Wherever they have appeared, they have won high praise. Their presentation of Shakespeare is given with a refinement and competence that is extremely rare in this country.

Clifford Devereux is one of the best known and liked of the contemporary actors. He is supported by Miss Zinita Graf in the leading roles, and a company of chosen players.

NATURALIZATION FREE TO YANKS

Filing Papers in Army Does
Not End Pro-
cedure

Herbert F. Hansen, clerk of Circuit court today, makes the following announcement concerning the application of the parts of "The Sundry Civil Service Bill" pertaining to the naturalization of foreigners who have been in military service.

"Any person of foreign birth who has served in the military or naval forces and honorably discharged shall not pay any fee for naturalization proceedings, this provision to continue for one year after all American troops have returned to the United States.

An alien coming within the terms of this law does not need a certificate of arrival; nor a declaration of intention. He must first be examined by a representative of the Naturalization Service, after which the petition may be heard in the Circuit court for this county.

Many soldiers filed petitions for citizenship in England or France and took the oath of allegiance before an army officer designated for that purpose. Some of them have gained the impression that they are citizens; but unless such petitions were afterwards presented to the proper court in the United States, the designated witnesses heard, the order for admission entered, and certificate of citizenship issued such men are not citizens. They should file a new petition and it will not be necessary to take further action on the petition filed overseas.

Please bear in mind that all applicants under the above mentioned provision of the naturalization law must be examined by an examiner of the naturalization service before filing a petition.

Births Here Not Hit By War Records Show

RECORDS of the city health department show that the number of birth in Madison has steadily risen in the last four years in spite of the war. Births reported in 1914 were 758. The figures rose to 918 in 1918. In 1915, only 671 births were recorded, but the reason for this smaller number is attributed by Dr. H. E. Purcell to failure to report the births. Such was perhaps the case also in 1918 when the number of births recorded was 58 less than in 1917.

In the year that America entered the war, 1917, the number of births recorded were 976, an increase of 203 over the 1916 births.

Since 1911, perhaps before, the boy babies in Madison have come in greater numbers than the girl babies. This would seem to bear out the old saying that when more boys than girls were born, there was sure to be a war.

FRENCH CLUB GIVES COMEDY

Masterpiece of Labiche
Most Brilliant Since
Moliere

On Wednesday, Aug. 6, at 8 p. m. in Lathrop hall the French club of the university will present in the form of a two act comedy a most amusing travesty on the common practice of well-meaning people to make others think them different from what they are.

La Poudre aux Yeux—literally "dust in the eyes"—is one of the most brilliant comedies written in over three hundred years of French dramatic history. It is from the pen of Eugene Labiche, a member of the French Academy, and fully exemplifies the wit and gaiety which always distinguished the French as a nation, and produced such inimitable writers as Robalais, Moliere, and Voltaire.

Cambridge, motored to Janesville last Saturday. Colonel is taking treatment for rheumatism from Dr. Fox of that place.

Between four and five hundred attended the social at Starks and 30 gallons of ice cream were consumed, besides sandwiches and coffee. \$118 was realized.

THIN, NERVOUS, RUN-DOWN PEOPLE SHOULD TAKE BITRO-PHOSPHATE

Creates New, Firm Flesh
Strength and Energy in
Two Weeks Time in
Many Instances

Bitro-Phosphate Should be Prescribed
by Every Doctor and Used in Every
Hospital—Says Editor of "Physi-
cians' Who's Who."

"Take plain bitro-phosphate" is excellent advice to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by C. H. Naffz in Madison and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-

Georgia Hamilton, the wonderful "mopie" girl, who was once thin and frail, says: "Bitro-Phosphate brought about the magic transformation. I gained 15 pounds and never before felt so well."

phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Clinical tests made in St. Catherine's Hospital, N. Y. C., showed that two patients gained in weight 23 and 27 pounds, respectively through the administration of this organic phosphate; both patients claim they have not felt as strong and well for the past twelve years.

Increase in weight usually carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to

brighten and pale cheeks glow with the bloom of perfect health.

Physicians are now recognizing its merits by its use in ever increasing quantities. Frederick Kelle, M. D., editor of New York Physicians' "Who's Who," says: "Bitro-Phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood."

Joseph D. Harrigan, Former Visiting Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anaemic, or run-down take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance."

Bitro-Phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensary as being an excellent tonic and nerve and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-Phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test requirements. Bitro-Phosphate is therefore not a patent medicine and should not be confused with and of the secret nostrums, so-called tonics or widely advertised "euro-called" CAUTION!—Although Bitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its tendency to increase weight, those using it should avoid fat-producing foods unless it is the desire to put on flesh.—Adv.

WILKES BREWER
IN NEW RECORD

Defeats Royal Mac in Sixth Heat—Murphy Buys Wood Patch

COLUMBUS—Wilkes Brewer, winner of the unfinished 2:06 trot of Tuesday took a new world's record on Wednesday winning the sixth heat of this event in 2:05 1/4. It was the fastest sixth heat ever trotted, lowering the record of 2:06 1/4 made at Toledo last year by Esperanza. Royal Mac was no match for his rival, tiring badly the last 100 feet of the race.

Ante Guy won the 2:04 trot in straight heats from Binland, who was driven by Geers.

Mignola, handily won the 2:08 trot, the Southern hotel stake, purses \$3,000. Roy Grattan, a heavy favorite took the 2:03 pace without a ripple.

In the 2:13 pace, Lady Wreath and Jack Keith were the real contenders, the latter finally winning after a hard five heat struggle.

Thomas Murphy on Wednesday purchased the pacer Wood Patch 2:05 1/4 from G. K. Bergsberg of Minneapolis for a reported price of \$7,500.

The pacer, Symbol Baron 2:06 1/4 owned by Chauncy Sears of Fall River, Mass., dropped dead this morning while Dick McMahon was working him on the track.

Ferdie Schupp, Giant Star
In 1917, Ready To Give Up

Ferdinand Schupp, it is said, is to retire from baseball. Crestfallen over his tumble from the pinnacle of fame and his transfer to the St. Louis club, the boy who was a marvelous pitcher a brief two years ago, will lay aside his uniform to engage in business with his father, a Louisville tinsmith, according to a report which has drifted around New York.

There is reason to believe that the report is founded on fact, but whether or not the young hurler will stick to his resolution is problematical.

It is natural that the Louisville Kid should feel keenly his failure to regain the form he knew back in 1916 and 1917, and that his first thoughts in his hour of gloom should be to seek new fields, where a lame arm doesn't entail loss of caste.

He has been shunted from the club with which he rose to fame and which is now mauling its way along at the head of the pack to one that is lagging back in the ruck, an object of scorn not unmixed with pity.

St. Louis, geographically speaking, is more than a thousand miles away from New York; in the estimation of the average ball tosser it is much farther off than that for it is tightly wedged in the second division.

There is another factor which enters into Schupp's decision to abandon the profession in which he once held sway. It is the loss of confidence that has come with his banishment from the Polo Grounds.

The Louisville Kid's team mates have long held that lack of confidence in his ability to again take his place in the front rank of National league hurlers has been his chief stumbling block. Only the fact that John McGraw had faith in him sustained him in his tortuous climb back along the road to glory.

When it became evident that at last his manager had despaired of his recovery to form, he too, lost hope.

Should Schupp's career terminate now it will stand forth as one of the most spectacular and unusual to be found in the annals of the national pastime. Still in his twenties, he has been a minor league marvel, a major league bench warmer possessing uncertain capabilities a star of the big time show and, in a baseball sense, a crippled and useless veteran.

The evolution has been accomplished over a span of seven years. It is not unlikely that upon deliberation, he will make up his mind to have at least one more fling at the art in which he once excelled. There is nothing for him to lose and everything to gain. He has been sent to a club which at the season's half way mark is definitely out of the race, and Branch Rickey can afford to experiment with him, for Rickey, too, has nothing to lose and much to gain. Schupp said that his arm is most supple and responsive when it is exercised under a broiling sun, and surely the sun shines warmly in the Mound City through the summer months. There, if anywhere, he should find the surroundings conducive to recovery of form.
